CHILD DROWNED IN THE CELLAR

Year old Son of Mr. and Mrs. John Bupp, of Fairfield, Falls Down Cellarway and Drowns in Three Feet of Water.

John Wilbur Bupp, the year old child of Mr. and Mrs. John Bupp was drowned in the cellar of their home in Fairfield on Tuesday evening between half past five and six o'clock, the lifeless body of the baby being found a quarter of an hour after the accident occurred.

Mrs. Bupp was working about the house during the early evening, thinking that her four children were all playing together on the front porch The other three children were under the impression that their baby brother was with the mother and when she came to the porch and asked what had become of her youngest child they received their first intimation that anything was wrong.

A search of the entire house was at once made and after some minutes they came to the open cellar. A few minutes later they were horrified to find the lifeless form lying in about three feet of water in the basement. Every effort was made to resuscitate the boy but all were fruitless and life was extinct. On the forehead of the lifeless body was a bruise which indicated, it is thought, that the baby was stunned in falling down the cellar steps and was probably unconscious when he reached the water.

The infant, who could just crawl around, had quietly gotten away from the other children and had worked his way to the kitchen where there was an inside cellarway. The door was open and with childlike curiosity he started down. The mis-step followed and the little body rolled down into the water.

The cellar had become flooded following the unusual rains of the past three days and contained about three feet of water so that death by drowning was sure even if the child had not sustained the bruise on the head.

John Bupp, the father, is a son of Matthias T. Bupp, of North Stratton street, this place, and lived in Gettysburg until about four years ago when he moved to Fairfield and engaged in the business of carriage making. His wife was Miss Nettie Howe, of near Gettysburg. The dead child was aged one year and 29 days.

Funeral services on Thursday morning at ten o'clock. Interment in Union Cemetery, Fairfield.

REMARKABLE FALL OF RAIN

Over Six Inches in Three Days. Monday Saw More than three inches Fall in Gettysburg. Some Minor Damage Done.

The rainfall of Sunday, Monday and Tuesday was the heaviest we have had here for many months. Colonel E. B. Cope, the local government weather observer, reports a total fall of 6.14 inches, up to 7 a. m. today, divided as follows, Sunday night .78 inches, Monday night 3.20 inches and Tuesday night 2.16 inches.

Minor damage has been reported from many parts of the county. Roads in many places are almost impassable and fields have been washed in some sections. Cellars are flooded and leaking roofs have caused damage in numerous homes.

In Gettysburg building operations were halted at a number of places by the rainfall Work practically ceased at the new federal building and at the new Reading railroad freight station in the west end of town Wherever similar work was going on it had to be stopped and the time which means so much just at this season of the year, was lost.

Nearby fairs have been reporting heavy losses as result of the rains. Carlisle, Allentown and Lewisburg fairs were all listed for this week and opened with small crowds and water soaked tracks so that the first few days amounted to practically nothing

No serious damage to railroad tracks, county bridges or highways have been reported though swollen streams were the rule all over this section of the state.

Silar, whose condition is regarded as critical, having been stabbed nine times, the lungs and other vital organs being apparently punctured several times, Monday at his home in York, as he lay upon his bed, affixed his name to a warrant charging Jones with the crime. Alderman Jacob Stiger went to Silar's home to take the information. Every effort is being made by Chief of Detectives Stoner and the police to apprehend Jones, who is believed to have fled to the south.

SUES EXPRESS CO.

The High Street Produce Company, of Hanover, through its attorneys, Niles and Neff, of York, have entered suit against the Adams Express Company to recover damages sustained through delays in delivering of goods in New York City. The suit filed is for damages during the month of February, when the express companies claimed to be so congested with eggs that they could not make prompt deliveries while the receivers of eggs claimed that there were very few eggs about and bid very high for what they could get. Mr. Abel, manager of the local produce company, states that the deliveries of the express company in New York City have caused considerable trouble; that they frequently make one and two deliveries of one one small shipment, and that while the rates charged are express rates and high enough yet, in some cases he thinks the time taken to make deliveries is not much better than ordinary freight service.

BEWARE OF THE FROST-PROOF TREE MAN

State Zoologist H. A. Surface is responsible for the statement that a man from Lock Haven, is going through the state selling trees, which he claims are frost proof, but which statement must not be believed Doctor Surface says that a few years ago this some man went through Tioga county, selling trees that he claimed were grafted on oak roots to make them borer-proof. The farmers at that time had a great deal of trouble with him, but finally managed to cancel their orders before the trees were delivered.

Persons who desire to buy trees should procure them from reliable nurseries, and avoid dealing with tree agents whom they do not know, and who can not furnish satisfactory credentials. They should not sign their name to any order or paper until they are entirely satisfied that it can not be changed into some kind of a note, bill, or order that was not intended.

AUTOS TO ROLL SOAKED TRACK

Carlisle fair managers have evolved a plan by which they hope to secure some racing this week despite the rain which has spoiled the opening of the exhibition thus far. They will turn every available auto in the town—about 100—loose on the track as soon as the rain lets up.

The idea is that the machines will so pound down the soaked stretch in a few hours as to permit the trotters and pacers, now restlessly stamping in their stalls to show something of their speed. The entries are the greatest in the 105 years of the fair.

RACE PROMOTERS GET INJUNCTION

Court Forbids Interference With Meet at Havre de Grace.

FIFTEEN ARRESTS MADE

Police Swoop Down on Gamblers Before Action of the Court Was Known.

Havre de Grace, Md., Sept. 25. — The climax was reached in the Havre de Grace racing muddle, and so far the racing contingent won against Governor Goldsborough and Attorney General Poe.

After several hours had been consumed in the Harford county circuit court at Belair by attorneys in arguing on the petition for an injunction to restrain the governor and other state and county officials from interfering with the race meet, Judge William H. Harlan granted the injunction.

The word was soon received at Havre de Grace, where the racing and betting had been going on, and there was joy among the bookies and the managers.

Deputy Marshil Manning, of the Baltimore city police, already had arrested fifteen bookmakers. Later a hearing was given them before Justice Hipple and all were released. The deputy marshal and his men swooped down on the bookmakers immediately after the last race and before Judge Harlan's decision was known. The police were armed with twenty-two warrants and intended to serve them all, but seven of the wanted men could not be found.

Among the men placed under arrest were the following: Thomas Lake, Peter Carroll, Eddie Ryan, C. Hayes, H. Gardner, C. B. Walters, M. Moss, M. Hayes, W. D. Euston and M. Brennan.

The action was taken in the absence of Sheriff W. L. Clark, of Harford county, who refused to come to Havre de Grace pending the determination of the injunction proceedings.

The arrests came with great surprise to the "bookies," who had expected no arrests.

The bookmakers had jeered and ridiculed the officers for their impotency. All the bookmakers were confident that the police would take no action. This confidence was strengthened by the fact that Sheriff Clark, who prevented the making of arrests Monday, was not on the scene again. This, according to the bookmakers, left no one at the track vested with authority to serve the warrants.

It was reported that one of the warrants was for Eddie Burke, manager of the track. Up to the minute when the betting ring is usually open for the first race it was the general opinion around the track that there would be no open bookmaking.

At 2.30 o'clock, however, one of the bookmakers mounted his block, which stuck out above a sea of water, and in a minute half a dozen of the money takers weer on the job, and others soon followed.

Governor Goldsborough put the racing scandal to the circuit court for Harford county and to the local officers of the law, and to them alone. To suggestions to use the militia from many quarters the governor turned a deaf ear. He refused positively to comment upon the suggestions.

POW-WOWING DIDN'T CURE

Child Said to Have Died Under the "Witch Doctor's" Care.

Pottsville, Pa., Sept. 25. — Coroner Moore is investigating reports made to him that a child of Mr. and Mrs. Monroe Bender, of Lincoln, near Tremont, died while under the care of a "witch" doctor, who tried "pow wowing" on the little patient to cure an attack of dysentery.

No other physician was employed, it is alleged, although the authorities are of the opinion that the child might have been cured with proper medical attention.

Coroner Moore has fixed Thursday for an inquest, and declares that if any of the numerous "pow wow" doctors who are said to be plying their business secretly in the neighborhood, are responsible for the death they will be held to answer to the law.

ELECTRIC SHOCK KILLS 1, INJURES 5

Policemen Were Reporting to Station by Telephone.

THE WIRES WERE CROSSED

Wind Causes High Voltage Cable to Cross One Used by Victims In Philadelphia.

Philadelphia, Sept. 25.—One policeman was killed by electricity and five others were seriously shocked in the most remarkable accident recorded in the history of the local police department.

The policemen on duty throughout the Twenty-ninth district in West Philadelphia went to the police telephone boxes on their beats to report to the station house.

As six of them, separated from each other by at least four blocks, lifted the receivers the wind caused a high voltage electric light wire on the circuit to cross the police telephone wire. The contact of the two wires caused 7000 volts of current to course through the six bluecoats, killing one and hurling the other five to the ground unconscious.

The shock was felt in the station at Sixty-first and Thompson streets by the house sergeant. He dispatched policemen through the district to give the alarm before most of the men had started to report.

George W. Freeman was shocked and instantly killed at the box at Fifty-second street and Haverford avenue.

The injured policemen are: Joseph McCurry, shocked at Fifty-sixth and Vine streets, severely burned, serious condition; Neil Maguire, shocked at Fifty-fourth street and Wyalusing avenue, serious condition; William Seal, shocked at Sixty-second and Vine streets, allowed to report again for duty; John Cox, shocked at Sixty-second and Vine strets, allowed to report for duty; Walter Bates, shocked at Fifty-seventh street and Girard avenue, allowed to report for duty.

Chief Pike, of the electrical bureau, and Director Porter declare the tragedy should be taken as a lesson by councils and hasten the appropriations for the placing of all overhead wires underground, the only plausible theory of the crossing of the wires being that the wires of the Philadelphia Electric company, carrying a voltage of 7000, sagged on the police 'phone feed wires, which only contain 150. Three electrical linemen and a district engineer and a force of repairmen also visited the scene to investigate.

According to witnesses, Policeman McCall, of the Twenty-ninth district, approached the box and Fifty-second stret and Haverford avenue about twelve minutes of three. He had on rubber boots and succeeded, after being slightly shocked, in registering his "pull."

Two minutes later Policeman Freeman slipped his key in the same box. There was a splutter of sparks and the policeman was hurled against an iron pole alongside the 'phone box and then reeled, moaned and fell in a heap to the pavement against the bulk window of a grocery store.

Several of the clerks ran out and carried the lifeless form of the policeman inside. Some one ran across the street and summoned Dr. A. F. Targette. He ran over and for some time worked over the man, trying to induce artificial respiration.

Meanwhile another man telephoned to the police station and the patrol wagon arrived and took Freeman's body to the hospital. There death was pronounced to have been instantaneous.

750 MARINES TO SANTO DOMINGO

President Authorizes Sending Them to Disturbed Island.

PROTECT CUSTOM HOUSES

The Detachment Will Sail From League Island, Philadelphia, on Friday.

Philadelphia, Sept. 25.—Two battalions of marines, comprising 750 men, will leave the navy yard at League Island, on the steamship Prairie, on Friday for the troubled republic of Santo Domingo, in accordance with orders received at the yard from the navy department.

The order was issued by Assistant Secretary of the Navy Beekman Winthrop, after a conference with President Taft, as the latter was on the train between Washington and New York.

The purpose of the expedition is to protect the custom houses in the island, which are endangered by the present revolution. Since 1907 this country has had supervision of the collection of customs in the West Indian republic.

Orders were issued by Commandant Grant, at the navy yard, to have the Prairie begin laying on stores at once.

Colonel F. J. Moses, who is now stationed at Annapolis, Md., will have charge of the expedition, it is believed. Lieutenant Colonel T. T. Kane will be second in command and Captain Logan Seland adjutant. Major Robert H. Dunlap, it is expected, will be in charge of one of the battalions.

Altogether there will be six companies of the marines. A large number of them will be from the Philadelphia navy yard, but it is understood that detachments will also be sent from the New York yard and other stations.

When the expedition sails it will be accompanied by Brigadier General McIntyre, chief of the bureau of insular affairs, and W. T. F. Doyle, of the Latin-American division.

A complete equipment of rapid-fire guns will be taken on the Prairie, and two three-inch steel guns of the new French pattern also will be taken along. The only United States force in the immediate vicinity of the island at the present time is the gunboat Wheeling, which has about seventy marines on board. This force will cooeprate with the larger expedition.

Acting Secretary Winthrop boarded the president's train at Washington and continued with him as far as Wilmington, Del. No definite plans were made by them during their talk, but it is understood that the force probably will be split up into small detachments, each of which will be stationed at one of the several custom houses on the island.

President Taft gave authority for the expedition when he learned that the situation in Santo Domingo has grown much worse in the last few days, and that the revolution is still spreading.

The Prairie is expected to reach Santo Domingo city about next Tuesday. In the meantime, if there is any outbreak on the island calling for immediate attention, the gunboat Annapolis will be ordered from Blue fields, Nicaragua, where she is stationed now, to Santo Domingo city, to act in concert with the Wheeling.

Revolt in the island has been smouldering since the death of President Le Conte, who lost his life in the destruction of the presidential palace by a supposed incendiary fire. A rebel army is forming in the interior, and its leaders have threatened to take over the custom houses, which are at present held by the federals.

The present revolution is believed to be promoted by the prime movers in the recent insurrection, which culminated in the battle of August 4 to 6, when Dajabon was taken by the revolutionists. Latest reports to the state department indicate that the revolution never has been suppressed and has smothered, only to break out afresh and with greater vigor.

MEXICANS KILL TWO AMERICAN SHERIFFS

Another Hurt During Raid on Arizona Ranch.

Morenci, Ariz., Sept. 25. — Albert Munguia and Tom Campbell, deputy sheriffs of Greenlee county, were killed and Deputy Sheriff "Dutch" Keppell seriously wounded in a fight at Eagle Creek with Mexicans who were said to be stealing and killing cattle.

The Mexicans fired on the deputies from a fortified camp in the hills. Thirty special deputies have left Morenci for the scene.

Fears are felt lest the mining camps of Nacozari and El Tigre be left without food supplies, because of the burning on the Nacozari railroad of two bridges, one and a half miles north of Yzabel and another seventeen miles south of Agua Prieta. It had been planned to resume railroad service and the first train was to have taken supplies to the towns, which have been cut off for two weeks.

THREATEN U. S. BORDER

War Department Hears of Attack of Rebels on Mexican Town.

Washington, Sept. 25. — General Steever notified the war department that the American side of the border was threatened by a reported attack of the rebels on Bouquillas, Mexico.

The town has been sacked. General Steever has directed Major Cameron to prevent depredations in the Big Bend district.

General Pascual Orozco continues to elude his pursuers and is reported to be in the vicinity of General Trevina's ranch, 110 miles southwest of Del Rio, with 1000 men.

General Steever reports that he now has a continuous patrol from the southwest corner of Mexico to a point thirty miles below Ojinaga.

MAY GIVE MARYLAND ROAD

That Is, If Delaware Doesn't Want Boulevard, Says Dupont.

Wilmington, Del., Sept. 25.—"If the people of Delaware don't want the boulevard, I will probably give it to Maryland."

A statement to this effect was made by Coleman Dupont in this city, after an inquiry had been made of Mr. Dupont as to what effect the appeal of the boulevard suit to the supreme court of the United States would have on his work.

Mr. Dupont made it clear in discussing the road question that if the people of Delaware gave evidence that they do not want him to build the road he will not do so, but he added that he might build one in Maryland instead.

Killed Playing With Rifle.

Oswego, N. Y., Sept. 25. — Joseph Musico, ten years old, while playing with a 32-caliber rifle at a neighbor's house, where he and his widowed mother were visiting, accidentally discharged the rifle. The bullet blew off his chin and death followed.

Washington, Sept. 25.—Minister Calhoun reported to the state department the confirmation of Chao Ping Chun as premier of China.

A JOINT RESOLUTION

Proposing an amendment to the Constitution of Pennsylvania.

Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, That the following is proposed as an amendment to the Constitution of Pennsylvania, in accordance with the provisions of the eighteenth article thereof:—

Article IX.

Section 15. No obligations which have been heretofore issued, or which may hereafter be issued, by any county or municipality, other than Philadelphia, to provide for the construction or acquisition of waterworks, subways, underground railways or street railways, or the appurtenances thereof, shall be considered as a debt of a municipality, within the meaning of section eight of article nine of the Constitution of Pennsylvania or of this amendment, if the net revenue derived from said property for a period of five years, either before or after the acquisition thereof, or, where the same is constructed by the county or municipality, after the completion thereof, shall have been sufficient to pay interest and sinking-fund charges during said period upon said obligations, or if the said obligations shall be secured by liens upon the respective properties, and shall impose no municipal liability. Where municipalities of counties shall issue obligations to provide for the construction of property, as herein provided, said municipalities or counties may also issue obligations to provide for the interest and sinking-fund charges accruing thereon until said properties shall have been completed and in operation for a period of one year; and said municipalities and counties shall not be required to levy a tax to pay said interest and sinking-fund charges, as required by section ten of article nine of the Constitution of Pennsylvania, until after said properties shall have been operated by said counties or municipalities during said period of one year. Any of the said municipalities or counties may incur indebtedness in excess of seven per centum, and not exceeding ten per centum, of the assessed valuation of the taxable property therein, if said increase of indebtedness shall have been assented to by three-fifths of the electors voting at a public election, in such manner as shall be provided by law.

MEAT PRICES TO GO STILL HIGHER

Chicago Packer Promises Further Increases.

Chicago, Sept. 25.—Beefsteak at 30 cents a pound as soon as winter arrives was predicted by retailers in this city.

Packers would not admit any certain figure, but all of them agreed that meat prices, which have advanced from 1 to 3 cents a pound in the last two days, will go still higher.

Choice sirloins are 28 cents. Pork chops, which two weeks ago were 22 cents, are selling at 28 cents for the best. There is a small supply of "chuck steaks" at 12 to 14 cents, and lamb shoulders at 12½ to 14½ cents, and the next cheapest meats are selling at 16 to 23 cents a pound.

Condensed milk dealers announced that next week their prices would advance from 10 to 14 cents a can.

The proprietor of a large packing house said:

"The American people have learned to grin and bear a great deal. They will stand for the present high prices and the future higher ones."

PREDICTS WORLD PEACE

Mrs. Black Points Out Natural Forces at Work In America.

Geneva, Switzerland, Sept. 25.—Mrs. Elmer Black, chairman of the propaganda committee, American Peace and Arbitration league, and president of the Woman's Progressive Economic league, spoke on "Natural Forces in America Working Toward International Peace" at the international peace congress. She said:

"There are certain great natural forces working in America toward the final consummation of world peace. These natural forces are developing the processes of social and economic evolution through which we are working out our part in the world's destiny.

"First among these I place the remarkable awakening of our people to the general subject of conservation.

"We are seeking riches and honor in fields of commerce and science instead of through military channels, and this also is opposed to war.

"We have learned the great power of co-operation in business dealings between individuals, and this is opposed to war between nations.

"The masses from which the human engines of battle are most largely drawn are setting a higher value upon their own life and health, and this reduces the chances of war."

Mrs. Vanderbilt was formerly Mrs. Margaret Emerson McKim, but obtained a divorce and wedded Alfred Gwynne Vanderbilt, who had been divorced by Mrs. Elsie French Vanderbilt. The marriage took place Dec. 17, 1911. Alfred Gwynne Vanderbilt was left the bulk of the $70,000,000 estate by his father, Cornelius Vanderbilt. He secured about $30,000,000 when he reached thirty years and will get the rest on Oct. 20, when he will be thirty-five.

ROOSEVELT MISSES FALL FROM STAND

Colonel Had Just Left When Structure Collapsed.

Tulsa, Okla., Sept. 25.—Several men were borne down in the collapse of the grand stand from which Colonel Roosevelt spoke here, and the colonel himself narrowly escaped. No one was injured seriously, however.

Mr. Roosevelt talked for fifteen minutes, and had just stepped from the stand to return to his car when the structure gave way. A dozen men, most of them army veterans, who were in the stand, were thrown to the ground.

Colonel Roosevelt ran back to assist the men who had fallen. He saw that no one had been hurt and held the crowd back with a wave of his hand.

"It's all right," he shouted. There was some excitement, but he quieted the crowd.

At Oklahoma City women were in the forefront, waving flags and bandanas and joining in the scrimmage with the men to shake hands with Colonel Roosevelt. Representatives of women's Roosevelt clubs filled a car on the special train which was run from Tulsa to Oklahoma City. Colonel Roosevelt visited their car on the way and was surrounded by the feminine campaigners, some of whom told him they had taken the stump for the Progressive ticket.

HUGHES ENDORSED

Anti-Wilson Democrats Defeated In New Jersey.

Trenton, N. J., Sept. 25.—Incomplete returns from the primary elections held throughout New Jersey indicated clearly that former Representative William Hughes, of Paterson, had received the endorsement of a large majority of the Democratic voters for the United States senate.

With a few exceptions the returns seemed to justify the conclusion that Hughes carried the various counties by from two to three times the vote cast for former United States Senator James Smith, Jr., his principal antagonist. Hughes was running as the picked candidate of Governor Wilson, and Smith was allied with the anti-Wilson forces throughout the state.

The Republican preferential vote was cast almost unanimously for United States Senator Frank O. Briggs, the only member of his party to file a petition.

ILLITERATE SPAIN

12,000,000 Inhabitants Can Neither Read Nor Write.

Madrid, Spain, Sept. 25.—As the result of an investigation ordered by King Alfonso, the minister of the interior reports that 60 per cent of the land in Spain is uncultivated and 38 per cent is utterly without irrigation.

The report shows that 4500 villages are without roads or railroads, 30,000 towns and villages have no schools and 12,000,000 of Spain's 17,000,000 inhabitants can neither read nor write.

Paul Jones a Strategist.

Probably most of those persons who read the account of the dedication of the Paul Jones statue at Washington think of that daring seafighter as a man of strenuous action, a sort of sea knight. Paul Jones was, indeed, all of that, and he was a great deal more, concedes the Boston Transcript. He was a thinker, who thought deeply on naval strategy and naval organization, and, so far as our service is concerned, his designation as the "father of the American navy" is correct. Save toward the close of his life, and then under most unfavorable conditions, he never had a chance to put his ideas of strategy into action. The Russian navy, with which he served in the war against the Turks, was a poor school and one unwilling to learn from a great instructor.

A common error of the experienced feeder is failure to provide good shelter. Lambs can not make good gains with wet feet, or soggy fleeces.

It is advisable to place a box of grit or coarse sand where the turkeys can find it, as not all farms have sufficient quantity for the purpose of good digestion.
